(HANUL + POSSIBILITY = HOPE)

Hanul Family Alliance

2014 Annual Report

(HANUL + POSSIBILITY = HOPE)

By recognizing challenges and turning them into possibilities,
Hanul brings hope to our community.

Letter from the President

David C. Namkung
President

The first year of our new Strategic Plan, "Preparing for the Next 25 Years," has provided Hanul with many possibilities for future growth. The staff, board, and volunteers of Hanul have worked extremely hard to establish the strategic goals to build a stronger foundation for the next 25 years of service Hanul will bring to the community. Progress is impossible without change, and different possibilities have kept us going to make Hanul a more effective, efficient, and comprehensive provider of social services.

We could not have done it without your support, and we need your continued assistance to turn possibilities into realities that will enhance the lives of the people that we serve. We look forward to your guidance and partnership as we take another step towards becoming the leading organization to meet the needs of our ever-changing Korean-American community in the Chicago Metropolitan area. We invite you to take a look at our 2014 Annual Report, and encourage you to learn more about us at our website, www.hanulusa.org. Thank you.

FACES OF HOPE

Care with **PASSION**

Home Care Aide Yoomi Jeong starts her day with prayer, asking for the ability to truly recognize the needs of the seniors she serves and provide care from a sincere heart. As a Home Care Aide, Ms. Jeong is known as “The Magical Hands” for her professional work ethic and spirit of volunteerism in everything she does. She is tremendously trusted by her clients and makes a positive difference in their everyday lives as she helps them with food, transportation, cleaning, bathing, grocery shopping, and companionship. There are countless stories, but the one Ms. Jeong remembers the most is the time there was an elevator malfunction and she walked up many flights of stairs to provide bring Korean food to the client who was homesick for her country. Ms. Jeong recalls that moment as being fulfilling and enormously rewarding; the extra work to go up the stairs was worth it because of her client’s gratitude. Another time, one of Ms. Jeong’s clients wanted to reach a friend in Korea but did not know how to contact her. Ms. Jeong called one of her acquaintances in Korea and managed to contact the friend that her client had been missing for a long time. With Ms. Jeong’s help, the client was finally able to talk to her friend in South Korea before she passed away a couple of months later. Home Care Aides at Hanul Family Alliance not only take care of their clients’ physical needs, but their emotional needs as well, going out of their way to provide comfort to seniors who might otherwise feel isolated. Hanul certainly has the expertise to close the disparities in the availability of and access to high-quality social services.

Serve with **REGARD**

It was in 2006 that I first visited Hanul for assistance. Because of my advanced age I had difficulty retaining self-sufficiency and started to build questions regarding senior services. Many of the older Korean immigrants have very low levels of literacy and understanding of public services that are out there. Although I acquired US citizenship after immigrating, it sure was a demanding experience when I tried to apply for public services myself due to the language barriers. Hanul provided culturally sensitive assistance and enabled me to obtain variety of senior benefits. It was truly the moment that I felt I was a citizen being cared for. The most grateful part of getting help from Hanul was the fact that I was able to communicate and express without restrictions. In addition, the professionalism that Hanul staffs have demonstrated provided me the confidence. The only short coming in getting services from Hanul was the location. Hanul Mt. Prospect office was too distant. However, they soon opened up a new office near my community in Lake County and I can’t be more excited about the new office. Overcoming cultural, linguistic, socioeconomic, and geographic barriers to the provision of social services is not an easy task. However, it has become a reality through Hanul.
